

PRESS RELEASE

Meeting at our stand C108 hall 26 - saturday 5,00 PM

worldwide distribution

All existing Kolzov plates produced by the only company authorized by the Russian scientist are part of our catalog and are available for wholesale sales.

Kolzov's plates belong to the category of devices ahead of time, ie they are ahead of what is used today for the pursuit of health and well-being.

We of the INDIVISIBLE Group have read a lot about the subject and we have experimented with it: the results obtained have exceeded the most optimistic expectations and so we decided to import them from Russia.

In July 2017, our publishing house, the IO SONO EDIZIONI, published the first book in the world on Tesla and Kolzov plates (italian only):

The secret of Kolzov's plates

We are in the sphere of vibrational medicine based on the use of specific frequencies to stimulate beneficial effects in the user and in the environment.

Kolzov's challenge was to devise a device capable of capturing and maintaining certain vibrational information of power over time in order to be able to emit it around him. The experiment is perfectly successful if we consider that the approximately 100 Kolzov plates contain tens of thousands of vibrations carefully selected by the Kolzov team and distributed by type in order to have specific plates for

the most common needs.
How they are made and how they work

Each device includes two external plates in magnetized plastic. The external dimensions are 5.5 x 7.8 cm (slightly larger than a credit card).

At the corners of these plates there are 4 "rectangular" 4-layer boards on which the energy information of each plate is imprinted and whose center is connected to the magnetized rubber.

The scalar field created in this way (each of the cards is polarized in a manner opposite to the one above and below) generates longitudinal electromagnetic forces (in the human organism it is our bone system to perform this function of emitter of longitudinal electromagnetic waves) that resonate with the user's organism and its thin bodies.

- **The Kolzov Plates act simultaneously on three fronts:**

they correct the functional state of the organism that uses them through the normalization of biorhythms and the structuring of body fluids;

they correct the external magnetic field that acts on the organism that uses them, protecting it from harmful external fields such as smog, electrosmog, radiation from geopathogenic zones, programs deriving from the collective unconscious or from disharmonic environments, energies, commands, entities, chains and invoices);

they structure extracorporeal fluids such as drinking water.

Our Catalog

Each of Kolzov's plates is sold with an instruction manual in Italian of over 90 pages produced by us.

We have all the series designed by Kolzov (Blue, Lilac, Gold, Green Series), all those in the "Exclusive" or special series and all the precious series COLLECTION.

Correttori di stato funzionale (KΦC)

BENEFITS: harmonization of your energy field with greater energy and better vibrational activity of organisms and spaces
